

An Informative Half-Day Workshop:

Machine Guarding and Hazard Identification

1 Who Should Attend . . .

This workshop is a must for anyone concerned about health and safety on the job including:

- ▶ Managers concerned about liability and workers' compensation costs.
- ▶ Employees who want to learn proper techniques for protecting their safety and health at work.
- ▶ Business owners who want to learn about compliance with Michigan Occupational Safety and Health Administration (MIOSHA).

2 MIOSHA Training Institute

MIOSHA Consultation Education and Training (CET) Division and Macomb Community College (MCC) have developed the MIOSHA Training Institute (MTI) through a formal alliance. The MTI introduced an Assessment-Based Certificate program, effective October 1, 2007. The certificate program offers participants an opportunity to be recognized for their educational efforts and increased technical expertise. Courses are offered throughout the state in sponsorship with other M-TECSM facilities, community colleges, and safety and health organizations. To learn more about the certificate program, log-on to the CET Division website at www.michigan.gov/mti.

3 What You'll Learn . . .

This half-day course is designed for general industry participants, (maintenance, safety and health professionals, and management personnel). This workshop familiarizes the participant with various types of common machinery and the related safety hazards. The course enables participants to recognize hazards such as those created by points of operations, rotating parts, and flying chips, while providing options for achieving abatement.

Agenda

We offer a flexible program agenda to emphasize the health and safety topics you want most.

- ▶ Discuss and define employer and employee responsibilities.
- ▶ Identify hazardous mechanical motions and actions.
- ▶ Discuss the four different types of machine guards.
- ▶ Identify the different types of machine devices.
- ▶ Identify additional safe guard protections.

New

MIOSHA Education Training Materials Has Gone Electronic

MIOSHA Training Institute (MTI) classes has changed the delivery of its printed education materials to an electronic format.

Before a seminar or workshop, registered attendees for this class will receive an e-mail with a link and instructions for accessing electronic presentation slides. The handout can be printed in advance or downloaded onto a laptop, tablet or smartphone to view during the seminar or workshop. A flash drive will be provided at the class which will include additional handouts and reference materials.

Important: When registering for this class, please provide your complete email address.

Remember to download your course handout ahead of time!

Frequently Asked Questions

Q: How will I receive my materials?

A: You will receive an e-mail from this cosponsor, which will include instructions and a link to the MIOSHA website. Download the handout to your computer or other device before traveling to the class. Additional materials will be provided to you in class on a flash drive.

Q: Which e-mail address will materials be sent to?

A: The link will be sent to your e-mail address. Make sure that you provide us with your valid e-mail address (where you want the handout link to be sent).

Q: Will I be able to print my materials at the seminar or workshop?

A: Print or download the presentation slides before you arrive for the class. No printing services will be available.

Q: What electronic format will the handouts be in?

A: All materials will be available as PDF documents.

Q: Will I be able to charge my device at the seminar or workshop?

A: We recommend that your device is fully charged before you arrive. Charging stations may not be available in the classroom.

Q: What happens if I do not receive an email?

A: In the unlikely event that you do not receive the link via email, please call the Contact Number listed on the next page for assistance.

Facilitator

Deborah Gorkisch is a Senior Occupational Safety Consultant who joined the Consultation Education and Training Division of MIOSHA in 2006. Before that, she had over a decade of safety and health experience in private industry. Deborah currently provides consultation and training services for mid-west Michigan.

Before working for the State of Michigan, Deborah was an EHS Specialist in a private manufacturing facility performing safety and health functions in two Michigan Voluntary Protection Program (MVPP) STAR sites. This included, but was not limited to, injury management and record keeping, program development and implementation, regulatory and best practice training, chemical management program, industrial hygiene coordination, hazard recognition program, and safety team development and facilitation. Deborah is a graduate of Grand Valley State University with a Bachelor of Science degree in Occupational Safety & Health.
